

Why the Cambridge Program at W.R. Thomas Middle

Education that becomes a tool for life

How are our WRT students prepared for the future?

Cambridge learners build more than just a deep understanding of their subject. Being a student of Cambridge Pathway means developing the higher order thinking skills to apply what they've learned. Solving problems creatively. Thinking for themselves. Doing their own research and communicating it. Working with other people on a project they've designed together. So, we make sure our programs encourage students to develop the attributes of the Cambridge learner: confident, responsible, reflective, innovative, and engaged. And help them to succeed in tomorrow's world.

Ready for the future

How do students benefit from Cambridge Pathway?

Cambridge Pathway prepares students for life – helping them to develop an informed curiosity and lasting passion for learning. It helps students develop thinking and learning skills – ready to tackle the demands of tomorrow's world, capable of shaping a better world for the future.

That's why success with Cambridge opens doors to the world's best universities – in the US, the UK, Australia, Canada and beyond. It's what you'd expect from an organization that is part of the world-leading

Courses that challenge and inspire

What do our students study?

We want each student to fulfil their potential and make the most of their academic experiences. We have a program designed with the help of expert educators in schools and universities to challenge students and get them excited about what they're learning. Our subjects of focus are math, science and technology among others.
